Add files to your Shopify products

How to attach a file to your Shopify product that will be available for the customer to download after purchase

Written by Andrew

Updated over a week ago

- Select a Product from [Your Sky Pilot Products Page](#)
- Select the variant you would like to add files to (if your product has multiple variants)
- Click **Upload File** to add each file you would like to add and then click **Save** once you have selected all files you would like to add.
